

Dear Colleagues,

ISAC, ICCS and ESCCA are pleased to announce that the following individuals have passed the International Cytometry Certification Examination (ICCE) in September, becoming the first individuals to earn the Certified Cytometrist credential:

Yinet Alvarez, Lehigh Acres, USA
Herene Barros Miranda Lucena, Fortaleza, Brazil
Adriana Galeano, Ciudad Autonoma De Buenos Aires, Argentina
Seamus Hayes, Cork, Ireland
Rachel Luu, Ottawa, Canada
Christine Parmenter, Union, USA
Rachel Petrola Jorge Bezerra, Fortaleza, Brazil
Michelle Tseng, Englewood, USA
Sandra Yoder, Nashville, USA

Please join the Certification Advisory Committee in congratulating our colleagues in achieving this milestone in their careers.

Sincerely,

Robert F. Murphy
ICCE, Chair and ISAC, Past-President

About ICCE: The ICCE is the result of two years of collaboration between ISAC, ICCS and ESCCA with strong financial support from the Wallace H. Coulter Foundation and with valuable input from cytometrists in many locations and work settings. The process began with a market feasibility study, which concluded that there was a perceived need for a cytometry certification and that there was a common body of knowledge shared by cytometrists in all work settings. A role delineation study was then conducted to produce the ICCE content outline, and volunteers wrote, edited and approved the examination. For more information on the ICCE please visit www.cytometrycertification.org.
