

## Quality & Standards Committee Membership Application

*"The ICCS Quality and Standards committee is dedicated to the optimization of fundamental flow cytometric testing components. Its purpose is to identify major areas of variability, determine critical components needing standardization, develop and define acceptability standards and criteria, and provide guidance and measures for practical implementation in the laboratory. This group will work closely with the ICCS education committee and other entities as necessary."*

**Expectations:** Members of this committee are expected to participate in reviewing literature, writing up modules, performing experiments, joining monthly conference calls (at least 50% of meetings per year) and additional subcommittee conference calls and other interim work.

Name \_\_\_\_\_ Email \_\_\_\_\_

Institution \_\_\_\_\_

Current Position \_\_\_\_\_

- MD
- PhD
- Medical Laboratory Scientist / Technologist
- Research scientist
- Certified specialist in flow cytometry

Years of experience in flow cytometry \_\_\_\_\_

Type of flow cytometric experience \_\_\_\_\_

Other relevant experience \_\_\_\_\_

Recommended by 2 ICCS members

1. \_\_\_\_\_ at \_\_\_\_\_

2. \_\_\_\_\_ at \_\_\_\_\_

I am interested in contributing:

- as an advisor
- writing modules
- technical experience in flow cytometry - Instrument
- technical experience in flow cytometry - Reagents and Panels
- technical experience in flow cytometry - Specimen Preparation
- reporting
- other
